

Window cleaning and specialist cleaning for a leading London financial institution

Antac Support Services have been delivering high quality window cleaning and guttering services to a global, well renowned financial institution for the past 8 years to its 4 main core sites in London. As a high profile organisation, it has all the facilities one can imagine including cafés, childcare, gyms and dry cleaners to cater its 6000 employees, comparable to a 5***** hotel. In consideration to this, Antac have to meet such high exacting standards where they employ full time, static window cleaning operatives to clean all the windows varying between 6 and 10 floors on a six monthly basis.

We clean all these prestigious sites by means of a combined methodology including traditional methods, 'Dragonfly' internal window cleaning system, reach and wash pole fed system, mobile access platform machinery, cradle system and abseiling to exceptional high standards and strict health and safety measures. All tasks are self delivered using our own fleet of access machinery which ensures we do not have to pass on expensive costs to our customers including spider lifts and 15m and 35m access platforms to reach those difficult to access areas.

In addition to routine window cleaning, Antac provide more specialist cleaning services through cladding cleans, balustrade cleans, gutter cleans, cleaning of gullies and drainage areas as well as jet washing of car parks, loading bays, paved terraces and taxi ranks. We also provide reactive cleaning and graffiti removal ad hoc in those emergency situations to retain the global company's high class, gleaming image and integrity to its worldwide brand name.
